

We claim:

- Dr. A.* 1. A compact veneer based on a reaction mixture comprising
5 a) isocyanate,
b) as compounds which are reactive toward isocyanates, a
mixture (b1), comprising:
10 b11) from 15 to 90% by weight, based on the weight of the
mixture (b1), of at least one polyether polyalcohol
having a molecular weight of from 400 to 6000 and a
mean functionality of from 1.5 to 3 and based on
15 hydroxyl-containing initiator substances and
propylene oxide and also, if desired, ethylene oxide,
b12) from 0 to 20% by weight, based on the weight of the
mixture (b1), of at least one polyether polyalcohol
20 having a molecular weight of from 400 to 6000 and a
mean functionality of from 1.5 to 3 and based on
amino-containing initiator substances and propylene
oxide and also, if desired, ethylene oxide,
25 b13) from 0 to 35% by weight, based on the weight of the
mixture (b1), of at least one polyether polyalcohol
having a molecular weight of from 150 to 7000 and a
mean functionality of from 2.1 to 5,
30 b14) from 0 to 30% by weight, based on the weight of the
mixture (b1), of at least one bifunctional chain
extender, plus, if desired,
35 c) catalysts and/or
d) auxiliaries and/or additives.
2. A process for producing compact veneers, which comprises
reacting a reaction mixture as claimed in claim 1 in a mold.
40 3. A molding comprising foamed polyisocyanate polyaddition
products and a compact veneer as claimed in claim 1 as a skin
adhering thereto.
45 4. A process for producing moldings as claimed in claim 3, which
comprises producing a veneer in a mold as claimed in claim 2
in a first step and subsequently producing, in contact with

2

Add 1
etc - the surface of the veneer, a foamed polyisocyanate polyaddition product by reacting a reaction mixture comprising (a) isocyanates, (b) compounds which are reactive toward isocyanates, (c) blowing agents and, if desired, (d) catalysts, (e) auxiliaries and/or additives.

5. The use of moldings as claimed in claim 3 as seats, dashboards, consoles, glove compartments or automobile interior or exterior trim or in shipbuilding.

10

6. A seat, dashboard, console, glove compartment or automobile interior or exterior trim as set forth in claim 5.
